CHICAGO WEDNESDAY MORNING FEBRUARY 3 1858.

NO. 202.

MILY TRIBUNE.

no Primary Meetings for the choice nies to the City Nominating Convention be held on Friday, February 12th. as for Mayor, Marshal, Treasurer, &c. off he held on Saturday, February 13th. There will be a Grand Rally of the Repub of the City, on Saturday evening next, the

A sketch of the remarks of Hon. Mr. rs. Hrsar, Bank Commissioner, at the Mermis' Meeting on Monday evening, will be nd in enother column.

whi sext door neighbor takes it? and if not are him to subscribe for the next four weeks at least. The spring election will take place the first of next month. The public dis-crises will be sharp, spisy and vigorous, nery Republican should keep well posted. We are decidedly opposed to the tax-caters aling over Chicago next year, and they will as do it if every Republican feels as we do on

and Descript came out on the morn of the tareater's Convention in an edito hompson for Judge last fall, because he was a (sew Nothing, and through its opposition he Jelge of the Recorder's Court ! On the next perning thereafter the National Demokrat puts Tooiles, it exclaimed, "d-n Thomp and it supports all of him, except the G. & W.

Recorder. L. W. Montgomery, Esq., an old influential Democrat of the First Ward, ad his petition to fill the vacancy in the Re philcan ranks caused by the desertion of F. C. aid he had stood humbug and pro slavery abo housands of good Democrats had done before to its confidence and bosom—that when su men as Danenhower, Boone, Morris, Salisbur Knights, Thompson and like fik get into the party, it was time for good Democrats to be

geting out of it.

Mr. Monigomery was unanimously elected to fill the vacancy.

After Gro. W. Thourson was nominated for Recorder by the Tax enters, he was called upon

for a speech. His remarks were anything but what should come out of the mouth of a would-WALKER, BRONSON & CO. be Judge. He began by saying that he had never been a very active Democrat, (he was a Kaow-Nothing,) but when he went to tife polls ties, and at prices ranging from a recoper to a Kaow-Nothing,) but when he went to tife polls ties, and at prices ranging from a "copper to a slug," By all means call on Andrews and examine his ticket and voted it without a scratch. If elected Judge, he had no doubt but that should administer the office to the entire sai action of the Democratic party. He said noth-ing about administering is impartially, or just-ly, or for the public interest—knowing no party Notice to Railrond Co.'s and Contractors.

Contractors.

SPECIAL CUNTEACTS WILL BE WILL be be welfer frasporality Company of the importance of the contractors of the but looking only to the law, testimony and the good of the community,—he made no such promises; but on the contrary pledged himself, if elected, to administer it in such a manner as would prove acceptable to the Democratic party. He was nominated as a partizan, is run as a

partizan, and if elected, is pledged to be a par-tizan on the bench.

Miderman of the Sinth Ward.

Mr. Boss, Ticket Agent in Chicago, of the Pitisburgh, Pt. Wayne and Chicago Railroad, and the candidate of the Irish Democracy for Alderman of the Niuth Ward, is a very clever fellow personally, and in the way of his business, we wish him all the success imaginable. We expect him to send a "Season Pass" over his road to the Trimuns office, with a polite note; and we shall seknowledge our obligations to the "gentlemanly agent of that road" in fitting and appropriate words. But selling tickets for a papular railroad, and serving the city in the Common Council are two widedly different things; and we shall be surprised and discity in the Common Council are two widedly dis-brent things; and we shall be surprised and dis-appointed if the voters of the Ninth do not elect Mr. Boss to attend to his legitimate business and let office-huating alone. There are three good reasons why Mr. Boss should be beaten. 1. He has only a temporary residence in the Ward. He may go out at any time that his landlord refuses to renew his lease. 2. He has no interests in common with the

REPUBLICAN CLUB of 10th Ward met at Hock's
Hotel Monday evening, Feb. 1st, and notwithstanding the severe snow storm, the house was crowded
with earnest, active voters, determined to do all in
their power to carry the Ward in the coming election. Specches were made by Messra. Schilling,
Crocker, Miller and Headricks.

They adjourned to meet at Niemeyer's Hotel, cor
Cansi street and Mitchell, on Monday evening, Feb.
8th, 1858. By order of the Club.
R. B. SPONE, Secretary.
Crincaso, Feb. 1, 1859. 2. He has no interests in common with the permanent residents of Chicago. Next month, or next year, he may be ordered by the Company in whose service he is, to go to Pittsburgh, Pt. Wayne or Wheeling, wherever he can serve ther interests best. He dises not own a foot of property in the site.

can serve ther interests best. He does not own a foot of property in the city.

S. Mr. Boss is the paid agent of the P., Ft. W. & C. R. R., and we learn that he does not run because of his sympathy with his party friends; but to serve, in the City Council and as an Alderman, the interests of the Company in whose pay he is. This Company, as is well known, will, next Summer, have completed their read to this point, and before the expiration of the time for which he is chosen, if successful, will be asking the right to come into men of the Ninth? Have they not one among them whom they can put into the city govern-

Rew York, Feb. 2.—There is no truth in the story in one of our morning papers that the Collins line is to be abandoned.

Peter Peters was fined \$5 and seut sigty days to Bridewell for getting drunk and abusing his family. Edward McLaughlin, a farmer from DeKaft Cef., came to the city to sell some grain. Having effected the sale and received the cash, he determined to see the Elephant, and first went to the Democratic City Convention. Here he made the acquaintance of a couple of the no-stockings who swarmed there, and they got him drunk. They then coaxed him to visit a vile den in Market street, where they piled him with drugged liquor and finally knoched him dows with a shing shot, robbed him and dragged him into the street, where he was found by a policemen and taken to the watch house. McLaughlin was released from custody in the morning. His experience in our city may be of service to him.

For being drunk and disorderly, Silas Greenman and P. H. Patterson were fined \$2 each; Francis Mulvane and Phillip Velley \$10 each; Mrs. Sullivan \$5 and twenty days in Bridewell.

Police Court.—Silas Greenman and P. H. Patterson, were fined \$1 each, for slaging indecent accept in the street, in a bolistocous manner.

A colored man named Andrew Davis, was sent to the Bridewell for 60 days and fined \$5 for stealing a lamble, when from the house of Leonard Silery. Poter Peters was fined \$5 and sent sixty days to The Daily Minnessian published at St. Paul another Irish-ridden city, has the following comment on a case of brutality which lately ocurred there, one of the principal sctors being an Irish policemae. As it is the avowed pus-pose of the cardidates nominated by the Silk-Stockings' Convention in this city yesterday, to fill up the police force of Chicago with Irish explusively, to compensate them for the indig-nitles which they endure by being thrust out of

explusively, to compensate them for the indignitles which they endure by being thrust out of
sight on the general ticket, we take it that the
comments of the Monesotism are not filt-timed
or inapplicable in this latitude:

The fault lies in the appointment of Celtie Irishmen at all to places on the police? To excavate
under proper direction those great ditches called
canals—to handle the spade and pickax and wheelbarrow in grading our mitrode, and similar latellectual employments—in these lie the peculiar forte
of the race. Their education as a class fits them
for no more elevated pursuits, though there is no
avocation in life, in all the range of politics, mechanism or acience, which an Irishman will not
belily pretend to be proficient in, if you said him—
"Can you do it?"—"An' sure, an' I sury' apt to be his self sufficient sureer.

But this race of gaspile are particularly ansuited
to be police officers, of all other employment in this
world. This is a situation demanding courage,
moderation, mielligence and great discretion. It
requires a knowledge of human nature; and the
exercise of discrimination as to the best and casiest
modes of ruling men. But in a Celtie Irishman
courage is very upt to run into brutality and cruelty, like the bravery of the Sepoys in India for when
the Irish held sweetings in this country, to sympathies in their torturing and murdering helpless women and childen simply because they were of Anglo Saxon blood! As to moderation, it is unknown
to the Celtic-Irish whencer their passions are
aroused; their intelligence is mostly but canning;
and discretion is a quality which none of their historians ever accused them of possessing.

To these objections to their serving on the police,
is another which should also have uniquit. So great
is the antipothy growing up between them on the
one hand, and Americans, German, Prench, English,
Scotch, Swedes, Norweginns and Scotch Irish, on
the other, that the disposition to resist them as officers of the law, in the execution of

A colored man named Andrew Davis, was sent to the Bridewell for 60 days and fined \$5 for stealing a buffalo robe from the house of Leonard Singer. Hannah O'Slattery and Mary Thompson were fined \$5 such and sent to the Bridewell for 60 days Bell, where they had been at work.

Philip Velig, was fined \$6 for reckless driving through the streets. During his drive he run into a buggy, throwing the driver, Mr. John Milbury and

his son into the street.

Michael Crosson, a watchman in the employ of Michael Crosson, a watchman in the emplay of Messra. Drew & Co., was arrested for assenting a man named Henry Nutting, under the following circumstances: Nutting, who had been at work for Messra. Stone & Boomer, at Sterling, upon a bridge, came into this city on Saturday night last and put up at the Sheambeat House, on River street. On Sanday morning about 7 o'clock, he went down to Drew's dock, and while there, was attacked by Crosson, and badly kicked and pounded by him. He was also bitten by a dog, which Crosson set upon him, and otherwise severely injured. The latter was fined 420 by Justice King.

was fined \$20 by Justice King. harourant December—The City of Chicago es. E. D. Taylor and others.—This was an application by the city to the Court of Common Pleas, Judge John M. Wilson presiding, for judgment against the property of the dafendants, lying on the Chicago River, at the foot of Franklin street, to recover a special assessment levied thereon, to pay for deepening and excavating the bed of the river opposite the lots of defendants, on the north and west shores of the river.

of Monday morning another vile and alanderous attack upon my character, taken from the Middleport

Press. I hope you will grant me the privilege of
again replying through your excellent paper. I

will say, in the first place, that I am now satisfied

H. Syrups and Molasses five crosses, and grantined 11½ and 12; Code

10½ A fe and 2 5½; Colden Syrup 5, 22. Mission Sarrata Schools.—The Mission Sabbath School of the First Presbyterian Church, which convenes in the railroad cars of the Southern Michigan Depot, met the other schools were addressed by Rev. Mr. Boyd, of the Edina Place Baptist Church, and Rev. Mr. Vanmeter of the Five Points Mission, in New York.

Personal...—The following gentlemenare at the Tremont House: Jaco B. Jervis, President of the Southern Michigan Railroad; Hon. Thos. Corwin, of Ohio; R. N. Rice, Seperintendent of Michigan Central Hailroad; Judge Wm. Johnston, of Cincianati; Sarsnel Brown, Superintendent Michigan Southern Railroad; Alles Butler, General Agoit New York Central Railroad, and Col. James Taylor, of hinks I do. I will begin by saying, then, that Mr.

thinks I do. I will begin by saying, then, that Mr. K. was very willing to let me alone until the truth of his underhanded playing came before his own eyes and those of his sequaintances, then his "unwillingness to hart the feelings of my respected relations" deserted him.

Why did not my article in the Tribune call forth his vengeance, instead of waiting till it appeared in the Republican of Middleport? If he knew all the things he lays at my door, it was fits duty to make it known to the proper anthorities, and have me "dealt with as summarily as my crimes mer ited." As to the questions he puts to me in the last paragraph of his article, I need only say that it is useless for me to deny such silly and unmeaning charges. If I ever published such a book as he hints at, and that book is in Middleport, I should advise him to have it published; also, the few "things and circumstances" which are "yet in the dark." By the way, I will just ask Mr. K. a few questions: the way, I will just ask Mr. K. a few questions:

Does he remember anything about a certain letter
brought to his office on the 21st day of September
last, and letter inclosed with a home-made envelope last, said letter inclosed with a home-made envelope, and sealed with two or three red wafers? And does he remember that he could not make change for the postage into a cent? and does he remember of concluding to put a patent, self-scaling envelope on the letter in place of the home-made ones, and writing my name, and the post office, county and State, in his own hand, on said envelope, and then putting his post mark on it? Does he remember to have drawn the inference from this letter, that I had forsaken my wife, as she was then in a critical condition, and begged of me to return immeditely? When these questions are answered I will propound a few more of the same import, relative to letters written to my brother-in-law, during my father's incarceration here, and others.

As for the charge of my being too key to work

ha for the charge of my being too hay to work for a living, I don't think it becomes me to make any comments on it, but I will leave it to persons for whom I have worked to tes.ify. And as unscrupulous as Mr. K. thinks me, I don't believe he can say that I ever stole twenty-five cents at a card table.

I wish it distinctly understood by the public, that it is not my purpose or wish to mailgn the character of any person, but in order to do myssalf and friend justice, I must give me inkling of the character of the control of the co

Firsters's Northatton — At a meeting of Liberty Hose Company, held at their house on Monday evaning, Feb. I, 1858, it was manimously.

Resolved, That as the mejority of the Fire Department mat, in convention on Friday evening, Jun. 19, at North Market Hall, and then and there nominated D J. Swenie, for Chief Englacer, and L. Walter and M. W. Powell, for First and Second Assistant Engineers for the coming year, considering, as we do, from past experience, their fitness for said offices, we hereby place ourselves to abide by and sustain the said nominations, and invite the exempt firemen of the city and all good citizens to unite with us in securing their election.

W. R. Goodpoude, Poreman.

S. D. D. Bridder, — Caroline Wood alies Mrs. LARCENT OF BENDUNG.—Caroline Wood alias Mrs. Walker, was brought before the Police Court yeaterday, upon a charge of stealing bedding from the City Hotel. She esme to the hotel about two weeks ago and obtained a room. When she left the next morning she carried away a portion of the bedding in the room she occupied. The theft was not discovered until after the woman was gone. Complaint was made at the Police Office, and officer Cleves succeeded in anding the woman the same day, at a house in the North Division, and arrested her. She admitted that she stole a portion of the articles lost. She was placed in the watch house and mysteriously made her escape the same night. Yesterday she was arrested again, brought before the Police Court, and committed for trial in default of \$200 ball.

Larm Escans News.—English papers dated To all our readers who value economy, health and comfort, our advice is to go at once to No. 62 Lake street, corner of State, and purchase your year's supply of hoots, shees and rubbers.

This sale is no humbug, and is to continue but a short time only.

This seles is no humbug, and is to continue but a short time only.

The targains offered by Mr. Wells from this consignment are being appreciated. His store was constantly througed yesterday from morning until late in the evening. The goods are of superior quality, and at a saving of one hundred per cent. from prices paid by the consumer one year since. Some of the goods are also on sale at his old and well known stand, 163 Randolph street, under Metropolitan Hall.

COMMERCIAL BY TELEGRAPH. HOUSE-PER. 2.

Mr. Harris, of Ribnois, gave wolfice that he would to-morrow, move to take up the contested election case of Vallandigham against Campbell, in order to dispose of the preliminary question involved.

The House resumed the consideration of the printing deficiency bill.

The House spent several hours in considering the bill appropriating \$890,000 to supply the printing deficiency, and it was finally rejected, 67 against 135.

The President's message was received and read.

Jested, 67 against 135.

The President's message was received and read.

Mr. Stephens moved its reference to the Committee on Territories, and as the hour was late, thought it better to adjourn.

Mr. Harris, of Ill., moved to adjourn. Lostings of the foor, Mr. Hughes moved a reference to a select committee of five.

After a struggle for the floor, Mr. Hughes moved a reference to a select committee of five.

Mr. Bocock moved an adjournment. Negatived by 7 majority.

Bonne sharp words occurred between Mr. Haghes and Harris, of Ill.

Mr. Hughes made a speech, fully endorsing the message.

Mr. I homas Harris, of Illinois, offered a resolution that the message of the President and the Lecompton Constitution be referred to a select committee of 13, to be appointed by the Speaker, to enquire into all the facts connected with the said Constitution, and the laws, if any, under which the Convention was held, and also whether the provisions of the laws were compiled with; also whether said Constitution provides for a republican torm of government, and whether the population be sufficient for a representative to Congress under the present ratio, and whether the Constitution is satisfactory to the majority of the legal voters of Kansas; also to ascertain the places where cast in each county, the places where cast in each county, the census and registration under which the election of delegates was held, and whether just and in compliance with law, and with all other matters on the subjects; pending which proposition the Honse adjourned.

Mr. Wilson prevented the memorial of E. R.

Mr. Wilson presented the memorial of E. R. Livingston, of Mass., to be appointed an aid in the preparation of the catalogue, abstract and index of the original documents and papers of the U.S. Mr. Mason form the of the U.S.

Mr. Mason, from the Committee on Foreign
Relations, reported a bill to indemnify the
master and owners of the Spanish steamer
Amisted and cauge, involving payment for alledged slaves.

Mr. Seward, in behalf of Mr. Foot and himself, submitted a minority report, stating that
the claim in their opinion was not supported by
facts or law.

facts or law.

The Senate then passed the House bill, appropriating \$360,000 for the support of the National Armories. The Senate then resumed the consideration of the Army bill.

The President's Message was transmitted to

National Armories. The Senate then renumed the consideration of the Army Dill.

The President's Message was transmitted to Congress to-day, enclosing a copy of the Lecompton Constitution, with the ordinance respecting the public lands, and a letter accompanying them from Mr. Cathonn. The President's manying them from Mr. Cathonn. The President opens with the assertion that a great definition seems to pervade the public mind in relation to the condition of parties in Kansas. This rises from the difficulty of inducing the American people to realize the fact that any portion of them should be in a state of rebellion against the government under which they live. The dividing line is not between two political parties, both acknowledging the lawful existence of the government, but between those who are leyal to this government and those who have endeavored to destroy its existence by force and usurpation; between those who have endeavored to destroy its existence by force and usurpation; between those who abstain and those who have done all in their power to overthrow the territorial government established by Congress. This government they would long since have subverted had it not been protected from assaults by the troops of the United States.

The President then cites Gov. Walker's despatch as evidence of the existence of a revolutionary movement in Kansas, and gives the history of the Topeka Government. In the very Rohisson dated, the 7th December, to the Topeka Legi-lature, contains an open defiance of the laws and Constitution of the United States.

The Topeka Government adhered to with such treatomable pertinacity, is a government in direct opposition to the existing government prescribed and recognized by Congress. Such a principle, if carried into execution would destroy all lawful authority and produce university and produce university.

Mr. Bigier moved that it be printed and re-ferred to the Committee on Territories.
Mr. Trumbull looked on the inessage as a per-verted and incorrect history from beginning to end on the difficulties in Kansas. He said there principle, it carried not execute the produce univer-stroy all lawful authority and produce univer-al anarchy. From this statement of facts the reason becomes palpable why the enemies of the government authorized by Congress, have refused to vote for the Kansas Constitutional end on the dimentales in anosas. He say there was no usurpation in Kansas further than that committed by the President and the army, which had been ordered there without authority of law. He argued that the admission of Kansas under the Lecompton Constitution would be a violation of the Kansas-Nebraska act. would be a violation of the Kansas-Nebraska act.

Mr. Douglas would not go into an argument relative to the questions raised by the President's Message. His opinions had been clearly expressed on previous occasions. He thought the better course would be to refer the Message to the Committee on Territories. Hoping that course would be adopted, he asked leave to present a remonstrance signed by certain gentiemen as Governor and State officers of Kansas against the reception of that State into the Union under the Lecompton Constitution, which he moved be referred to the Committee on Territories and printed.

Mr. Toombs expressed his hearty approval to the President's Message. Adjourned.

Convention, and also afterwards on the question of slavery. It is because they have refused to manction or recognize any other Constitution ban shat formed at Topeka. Had the whole Lecomplon Consistuon been submitted to the people, the adherents of this organization would doublica voted against it, because if successful they would thus have removed the obstaclas from the way of their own revolutionary Constitution. Such being the infortunate condition of affairs in the Territory, what was the right as well as the duty of the law abiding people? Were they silently and patiently to submit to the Topeka usurpalion, or to adopt the necessary measures to establish a Constitution under the organic law of Congress, that this law recognized the right of the people of the Territory without an enebling act of Congress to form a State Constitution is too clear for argument. It is impossible that any people could have proceeded with more regularity in the formation of a constitution than the people of kanasa have done. It was necessary irst toos certain whether it was the desire of the people to be relieved from Territorial dependency and establish a State Government. For this purpose the Territorial Legislature, in 1835, passed a law for taking the sense of the people of the Territory on the expediency of calling a convention to form a State Constitution. At the general election, held in Oct. 1856, the sense of the People was accordingly taken, and they decided in favor of a constitution. It is true that at this election steamy of the transmitted to the people was accordingly taken, and they decided in favor of a constitution. It is true that at this election seems of the Territorial Legislature, in 1835, passed as a law for the people was accordingly taken, and they decided in favor of a constitution. It is true that at this election, seed the people was accordingly taken, and they decided in favor of a constitution. It is true that the people was accordingly to the Convention of the Institute of the Territoria decided i From Washington—Important News Respecting the Mormons.

Washington, Feb. 1.—Herald correspondence:
It is reported, on good authority, that Mr.
Buchanan contemplates withdrawing the troops
from Utab. Mr. Beruhisel, the Mormon delegate, has submitted propositions to the Administration, Indicating the willingness of the Mormons to vacate Utah and colonise on some of
the islands of the sea, outside the includibilities.

our Republic. It would have been in opposition
to the principles which pervades our institutions and in which is every day carried into
practice, that the people have a right to detegate the Representative chosen by themselves,
with sovereign power to frame constitutions,
estact laws and perform many other acts, with
out requiring that them should be estimated

tration, indicating the willingness of the Mormons to vacate Utah and colonise on some of the islands of the ses, outside the jurisdiction of the islands of the ses, outside the jurisdiction of the United States, provided the government will purchase, at a fair valuation, the Salt Lake city improvements. Mr. Buchanan asks that commissioners be sent out to arrange terms and details.

The Administration confidently expects that Kansas will be admitted as a State with the Lecompton Constitution, and there will be less opposition from the Northern and Western Democratic members than generally supposed. Great calculations are made on the consolidated vote of the South.

It is understood that the Lecompton Constitution will be referred to the Territorial Committee in the Senate, and immediately reported upon, with the bill for the admission of Minnesota attached, and they will be passed together. Similer arrangements have been made in the House. An exciting time is anticipated in both Houses to day.

Thouse's correspondence: The statement in the Heraid about the Tariff Investigating Committee is a mere fabrication, imade up from conjectures and floating rumors. Nothing in Mr. Stone's testimonny implicates Mr. Banks in the least. The signality \$7,000 story is the old affair of the \$700 loan magnified ten fold.

Destructive Fires.

Accust A. Ga., Feb. 1.—A whole square of buildings was destroyed by fire at Rome, on Friday last. Loss \$190,000.

Waterrown, Mass., Feb. 2.—The high school building in this placed was nearly destroyed.

WATERTOWN, Mass., Feb, 2.—The high school building in this place, was nearly destroyed by fire yesterday. Although considerable alarm and confusion prevailed, all the scholars escaped unpurred. NEW OBLEANS, Feb. 1.—On Sunday morning there occurred a large fire, consuming the magazine, market and the adjacent points. Loss over \$50,000.

Another fire took place this imorning, in Canoe street. Loss covered by insurance. Both fires supposed to be the work of incendiaries.

A Card from Horace Greeley.

New York, Feb. 2.—Horace Greeley publishes a card this A. M., to the effect that until recently he never heard, nor believed, nor suspected that Lawrence, Stone & Co., or anybody else, paid or primised any money, whether to members of Congress at Washington, te editors in New York, or ta anybody else, to procure a change in the tariff act. "If said committee supposes I could shed any light on the matter, I am very respectfully at their service."

**Entropy The Company American Principles of the Springfield, Mr. Vernon and Pittsburgh Railread Company have taken up all of their tracks but one, and have given notice to the Mad River Company that they cannot pass over it after today unless they accede to the proposition to permit the former company to run its trains to Dayton. Some considerable excitement graves.

New Omnans, Feb. 1.—Gen. Walker appeared in the United States District Court this morning.

Judge McCaleb said there was nothing against the grand jury having refused to find. er, imposed by the people upon hemselves to exclude them from creating their sovereignty in any lawful manner is which they think proper. It is true that the people of Kamasa might, if they had pleased, required the Couvention to submit the Constitution to a popular voice, but this they have not done. The only remedy therefore in this case is that which eriest is all other cases if the delegates who tramed the Constitution, have, in any manner, violated the will of their constitutions, the people always possess the power to change that Constitution or laws according to their own pleasure.

The question of Slavery was simulated to the cleation of the people on the 21st December last, in special content of the mandet of the Constitution. Here again a fair comportunity was presented to the adherents of the Topela Constitution if they were the majority, to decide this exciting question in their sam ray, and thus resider the right of Popular Sovereignity and again suffered the election to pass by default.

I beartify rejoice that a valuer and bester spirit prevailed among a large majority of the people on the first Monday in January, and that they did on that day vote under the Lecoimpton Constitutions for a Governor and other State officers, a member of Congress and members of the Legislature. This election was warmly contexted by the parties, and a larger vote polled than at any previous election in the Territory. We may now reasonably hope that the revolutionary Topelar organization will be specially and finally abandoused, and this will go far towards a final settlement of the unhappy differences in Kansas. If frauds have been committed at this election, by one or both parties, the Legislature and people of Kansas have then, in their own way, and in strict accordance with the organic act, fraund a Constitution and State government, have submitted the all important question of siavery to the people, and have elected a Govy croor, a member of Congress, members of the States. In this manner by localizing the questi Judge McCaleb said there was nothing against lim, the grand jury having refused to find a bill of indictment.

Walker was anxions to be put on trial for violation of the neutrality laws, but the Judge refused.

The District Alterney said there was nothing against Walker unless there were new instructions from Washington.

Wednesday Morning Feb. 3, 1834

The Suffolk Bank System. ning, several speeches,—good speeches too, we are willing to admit—were made in favor of he Suffolk Bank system; and the necessity which exists for its application to the banks of Illinois. In all of them, there was the prevailand keep their reserves of specie at the Suffolk for the redemption of their that the unimportant figure cut by the specie item in all New England bank-returns is due quite sincere in their opinions, and if they have been led into error, it is because they are unout any intention of Jisparaging the working of the system, its value as a regulator of the currency of the New England States, its equal izing effect upon the value of that our no matter where made; without denying that that system or some other more efficacertain in times of danger and alarm, is demanded in Chicago, we may venture to point out the error into which the speakers unwit-

It is probably true that the Suffolk Bank,

its vaults belonging to any other tation either in city or country. It is well understood among New England country bankers that the Suffolk does not require from them specie deposit for any amount whatever When a bank commences operations outside of Boston, it comes into the arrangement required by the Suffolk, and sends to that concern three sand dollars of its own notes for every on hundred thousand dollars of its canital. This ecording to the terms prescribed, must condoes business. But by a second arrangement count to the amount of its deposit—that is to borrow the deposit and pay a legal rate of interest therefor. The two agreements which ere " the vaunted system " in operation, amount to this: The Suffolk undertakes to protect the currency of the country banks-that is, to reof another, or in gold if demanded-for a certain specified sum per annum. That's all; but, d'acific side war concerned. Gen. Scott was it has the effect to keep all New England money much chagrined, and the next morning packed has the effect to keep all New England money at par in Boston ; It saves to the note-holder the shave or per centage which otherwise falls upon him when he attempts to couvert his notes into a merchantable equivalent for coin. It saves it, by making the country banks It restricts the tendency which most of the bankers have to excessive issues; but its At the same time, it has its disadvantages. It makes paper the exclusive currency of all and ; and thus fosters an element of weakness inherent in all banking systems. At this moment, there is not, we presume, one dol-lar in gold to every five dollars of paper in all the Eastern States. The system has thus far worked well, because it is in operation

of New England, might with great propriety be adopted here, we have no doubt. We have explained what that system is, we hope clearly enough to convince the merchants of Chicago that any institution in this city of half a million capital, and without a large circulation of its own to protect, may take the place here that the Suffolk fills in Boston. We have endeavored to show that there is little or no specie in the ordinary routine of the business; and that the country banks may easily comply with the terms which a central and controlling institution ought properly to impose. Our only regret is that the popular fallacy, that the Suffolk has a large reserve of specie, belonging to the rural banks, constantly on hand, is no true. If it were, we should urge the adoption of the system here, without a mement's unnec

SPECIE BASIS IN CHICAGO.

Mr. HEXRY said that his invitation to address the merchants of Chicago had overtaken bim ligent a body of men as the mercaatile commu thought this no time for declamation or orate

thought this no time for declamation or oratory, but rather for firm and declaive action. We had just passed through an unparalleled commercial revulsion. Nothing in the history of finance was comparable with it. Before the tornade swept down the commercial, financial and all other interests of the country, the full sun of prosperity was shinling on us. A few predicted the approaching crisis but none rentured to foretell she devastating storm which has had low the promoaching crisis but none rentured to foretell she devastating storm which has had low the promoaching crisis but none rentured to foretell she proadest meanments of commercial sagacity and skill. Now that the crisis was past, and business was slowly falling back to its accustamed channels, it was a proper time to inquire into its causes and provide against a recurrence of its iffs.

The speaker thought other causes than excessive banking had brought on the disasters of the past few months. This certainly contributed its share, but the chief cause was to be sought elsewhere. Money was only useful to sottle balances. In this department of commerce it was indispensable. When the first alarm was given by the ruinous depreciation of railroad a scuffices and the failure of giant institutions in New York, the bolders of money became a larmed. Whenever a panic occurs, the capitalist is the first one to get excited; the fountain of money is dried up; no one is sole to settle his private balances; no debts are paid; and general bankruptcy ensues.

The crists had now measurably passed away. Exchange had gone down from ten per c.m. to three, and was still too high. It was too high because the notes which constitute the circulation gone down in the world. State stocks are far superior to any other class of Banks society is probably the best in the world. State stocks are far superior to any other class of Banks had no interest in the order. State the whole circulation as par. Still, the stocks are far superior to any other class of Banks had no interest in the in Northern Illinois, are required to take up their circulation every 90 days, while others at remote and inaccessible parts never redeem twenty of their own notes during their corporate existence. This produces a disparity among the institutions of the State, and corrupts the whole system. Gold and silver are the tree basis of banking. Without this basis we have no security against unlimited and rainous expansion of the currency, which raises the price of everything without producing any corresponding benefit, and puts as at a disadvantage with respect to the permanent carrency of the East. This disadvantage is figured in the price of facebange. The speaker put the construction on the General Banking Law, that the bonds in the hands of the Audi-

hat would be the effect? Ninety days would required to get the bonds into New York, d the gold returned. Meanwhile the notes

over the fence by our boot straps in that way. The true remedy, in the opinion of the speaker, was to take measures for establishing a system in Chicago similar to the Suffolk system in Boston, and to put it into operation very soon after the opening of navigation. [Applause] Then the legitimate banks of the State would be placed on an equality, with respect to competition, with those of the swamp and the bush. Then capital will be attracted to our midst to organize under our present law. We must either repeal the cutire law to save the micratile interests of the State, or evablish some such system as this. It would not be safe to repeal the law. The Legislature is the last place in the world to go for the solution of financial problems. It we undertook to mend the present law there, we should only make it worse. Left there-be a Clearing House or ganized here through which the entire circulation shall pass once a day. It would take very little specie to effect it—far less than was generally supposed. Then let the notes of those institutions which refuse to clear either in Chicago or St. Louis, be returned regularly and systematically, and if they choose to go into liquidation, we can sell their bonds and doubtless make good use of the proceeds. [Applanuse] This cuestion rests with the merchants liquidation, we can sell their bonds and doubless make good use of the proceeds. [Apphause.] This question rests with the merchants of Chicago. Let them exhibit half the energy they have displayed during the prevalence of the late financial tormado, and the work is already done. [Continued spplause.]

lilegal insurance Office. We are told by CYRUS LARRYN that the H stead Insurance Company, of Weedsport, N. Y., s issuing policies of insurance in the Western Counties of this State, Here is what the Au-litor of State say mabout it:

Sears or Limon, Austral's Orem, State of County, Jan. 23, 125.

Cygus Largin—Si: The Homestead Insurance Co., of Wegelsport, N. Y. is not such in Insurance Company as our Law authorize, and all the business that they do is in direct violation of Law. They well know that fact, and know further, that they cannot get authority to act from this office. ity to act from this office. Very truly, JESSE K. DUBOIS, Auditor.

FROM WASHINGTON. [Special Correspondence of the Chicago Tribune.]

Secretary Flovd is so much exasperated by th defeat of his pet scheme for the increase of the army, that he incontinently counterman the order for the despatch of Gen. Scott to California, when Gwin's motion in the Senate in favor of his five regiments was defeat His bill received but eight votes against thirty eight. The rage of Floyd was indescribable when a messenger communicated to him the fatal result. He instantly sat down and concocted a new army order, revoking the whole plan, so far as the despatch of troops from the

up his baggage and started for New York. · Floyd is in a very ticklish place. Snelling investigation opens badly for him Hon. Robert Smith has been examined, and testifies that when the property was sold to Steele, it was, in his opinion, worth, and would have brought, five hundred thousand dollars, and parties stood ready to offer that sum, ar deposit, as the first instalment, the \$90,000 promised to be paid by Steele. He consider the transaction secret, collusive and corrupt There is no getting over the damning weight of this testimony. Steele may or may not make money out of his speculation; he may be forced to sacrifice it, by the casualties of the financial pressure; but that the Government was swindled on 6' \$400,000, there remains an shadow of doubt.

was awanted on of \$400,000, there remains a shadow of doubt.

It does not at all affect the case that Bol Smith is himself a land speculator, and wishest to purchase this tract. If he was willing to pay more than anybody else, he ought to have been allowed to purchase it. Gen. Washing ton, Gen. Jackson, Gen. Cass, Vice Presiden Breckenridge, and a best of other emisent as

ton, Gen. Jackson, Gen. Cass, Vice President Breckenridge, and a heat of other sminant personages, were and are the greedlest of land speculators, but it does not follow that they were and are not very honest men.

But to return to the increase of the army. I say let the people of lilinois narrewly watch the votes upon it. Jefferson Davis admits that his bill will add 7,000 men to the army, and others have shown that it will increase our annual taxation at least \$10,000,000. Do the farmers of Illinois want to assume their

the farmers of Illicols want to assume theis hare of this butthen? Do they want a standing army of 25,000 men?

And yet I learn that Douglas, Pugh, Charles Stuart, of Michigan, Seward and Gea, Wilson mean to yole for it, wish certain amendments. Now as to the last Sewators, I know that they hope to tear the bill to pieces, by striking ou and appending clauses which they suppose will draw the fangs of the "armint." In this they are mistaken. These troops are wanted for several contracts and the strict of the strict are mistaken. These troops are wanted for ser-vice in Kansas, and nothing else; as I said be-fore, we shall first have to pay and then to fight them. If Doughs and Staart vote for this fore, we shall have to pay and then is night them. If Dougha and Stnart vote for this army bill, depend upon it they are only con-triving plans by which Lecompton shall be ad-mitted without their votes.

The new printing thevery discovered,

army bill, depend upon it they are only contriving plans by which Leconpton shall be admitted without their sotes.

The new printing thevery discovered, happened in this wise: When the society of nigger propagandism failed a year ago to get 20,000 copies of the Dred Socit decision printed by order of the Senate, they persuaded the House printer, Wendell, to buy the copy-right for \$1,500 and to pay \$200 to the clerk of the Supreme Court for copying, and to issue 20,000 of the document, promising to pay him out of the contingent fund. This they were unable to do, and now the Senate is asked to foot the bill. As the opinion of the Supreme Court is simply a scandalous pro-slavery electioneering document, and, indeed, "a false and seditions libel" upon the Constitution, I hope the Senate will do no such thing.

In eleven short months the government has fallen into complete dilapidation. The Buchaneers have bankrupted the treasury and nearly destroyed the army. The brave and honest Com. Paulding has alone saved the Administration frem total disgrace, by packing up Walker and his confederates, and sending them back to the embraces of their southern charmers. Gobb and Floyd will necessarily have to tramp as soon as the Lecompton swindle is disposed of.

The last shape of the Protean Kansas question is, that Denver has given certificates to one set of members, and Calhoun to another set. If the Lecompton be passed, two sets of Senators will appear here raging for admission. The Fouth will support Calhoun and his colleague; the North the two Senators elected by the actually chosen Legislature. It seems that some of the judges of election on the 4th instant were appointed by Denver, and made their returns to him. These roturns Calhoun throws out as not in conformity with the Lecompton Constitution. This number will dwindie to zero as soon as Buchann can locate the men so as to bring them within reach of the patronage. The cancus was probably hald for the very purpose of informing the President of the men who were in the m

Signal and Poorin Chamber JUNIUS.

LA SALLE COAL MINES.
[Correspondence of the Chicago Tribune.]
La Salle. Japuary 22, 1863.

To the Editors of the Chicago Tribune:
In the Press of your city of the 19th inst is an article headed, "The new discovery of coal near La Salle." This article states that the vein of coal referred to "is near the land of the Little Rock Mining Commany, on the south side of the Ulittle Rock La Salle." This article states that the vein of coal referred to "is near the land of the Little flock. Mining Company, on the south side of the Illinois "Ewer," that it is "seven feet thick at the extreme "out-crop, and those experienced in such matters "think that it will above eight feet of workable coal "when under good cover on the above Compony's "fands. It lies about sixty feet below the upper "evin. A friend writes us respecting its quality as "follows: "Its quality is superior to any yet discove "evin. A friend writes us respecting its quality as "follows: "Its quality is superior to any yet discove "evin. A friend writes us respecting its quality as "follows: "Its quality is superior to any yet discove "in its fracture. Arrangements will seen be made in the market in Chicago and the Northwest." Now this may all do for purposes of a Stock Speculation now brewing in Chicago, and heralded by flaming circulars whose statements cannot be sarried out, but it will not count with those well possed in coal matters. Any one not familiar with the facts, would suppose from the article above quoted, that this new won extends no further than the lands of the Company referred to; but it is the opinion of good judges and men of much experience in coal operations, that it underlies nearly all this Coal Basin, except near the eastern out-crop where a portion of the Little Rock Enting Company's last of the second vein, as the article above quoted from represents. It is a good quality of Sphes coal, very unsults the old Briar Hill. It is also the opinion of the indres before ref

Measure. Editors:—At the Republican Cancus of both branches of the Iowa Legislature, beld at the Capitol last evening, James W. Grimes received the nomination for United States Senator, John Teesle State Painter, and ---- Mills, State Binder. At the caucus there were sixty-three member present—thirty two votes being necessary to choice. On the first ballot, Grimes received twenty-eight votes; the remainder being divided potween Judge Smith, James Thoringion, and others. On the second ballot Grimes received thirty-eight votes—

ominee of the caneus.

Tessdale and Mills were each elected by a handome majority on the first ballot.

The Democratic portion of the Legislature have irrually repudiated Scantor Jones in refusing to Dubuque. The most strenuous party appliances were brought to bear to secure the vote for Jones but his letter to the Democracy of New York completed his overthrow in Iowa.

since I wrote you on that subject. This moreing the House concerred in the Senate bill authorizing the Governor to raise, arm and equip a company of men for the defense and pro-tection of our North-Western frontier. This bill provides that a company of volunteers, consisting of not less than twenty-five nor more than one hun ired men, shall be raised by the Governor, and proseed to the scene of the late depredations of the Sioux Indians in several of our Nothern counties.

LEGISLATURE OF MICHIGAN.

[Correspondence of the Chicago Tribune.] LANSING, Jun. 29, 1858 As Moses erected a brazen "sarpint" in the wilerness that the children of Israel might look upon us and be healed, so has a certain Judiciary Com-mittee of the Michigan Legislature a while ago, put upon the records of the State, a report some what in the shape of a warning, for all future legislate and lawgivers. And for the purpose of "diffusing light and information" to all uninformed legislators, and for the benefit of the bar of Chicago, I cannot resist giving a few extracts from it through the olumns of the TRIBUNE, with "slight variations

It appears that a petition was presented to the Legislature from about twenty inhabitants of a cerin county in the State " praying that the laws of of the State of Michigan may be so 'simplified's o come within the knowledge of every person, an hat every man may be admitted to the bar.' The committee reported that they "bailed wit lelight this harbinger of a political millenium." It is now some eighteen hundred years aince the toesin of monition sounded the alarm. 'Wo unto you also, yo knwyers for yo lade men with burden guievous to be borne, and ye yourselves touch not the burdens with one of your fingers.'—Luke xi

The teachings of wisdom have not been uncorroborated by the masters of eong. Rare old B Johnson thus happily describes them:

"Men of that large profession that can speak To every cause, and things mere contractes, This they are house again, yet all be Law! This with most quick again; each unra And return; can make and onto them, Give formed consect, take preventing gaid of the can be consected as the proceeding gaid of the can be consected as the proceeding gaid of the can be consected as the proceeding gaid of the can be consected as the proceeding gaid of the can be consected as the proceeding gaid of the can be consected as the proceeding gaid of the can be consected as the proceeding gaid of the can be consected as the can be consected

Lord Brooke eays of the profession, that "Hecanes their ends bring merly avarice, They wind their wite to such a nimble girain As helps to blind the junge, not give frim eve

"Weight nothing to the world but miles and maggets And a main sunt." The weighted Donne aptly characterizes a "spruo roung lawyer" as

"All imputence and tongue."

"And few are the cities and villages of our lan
who cannot boast of their Dominie Pickiock drawn by the penell of Old Ren—

Ny man of law, solicits all my causes,
Ny man of law, solicits all my causes,
Pollows my business, makes and compounds my quarrela
Rets con my icanifectual inc 2008 all my strice.
And reasis been toe; recombine the country for mo, If such be the general character of the profes-sion, and who so bold as to gainaay it? then ought the petition to be granted, and all mer be admitted to the har, for an evil diffused may be rendered in ocious, as a diluted poison may be useful medi-cine.

to the hir, for an evil diffused may be rendered incocious, as a diluted poison may be useful medicine.

If, as many have supposed, and with obvious planathility, that the "latter day" hath dawned upon the earth, when men shall "sit under their own vine and under their own vine and under their own signers, why not every man become his own lawyer, plead his own causes, obtain justice for his own self; and save his own fees?

Under this view of the subject, your committee rejoice that they are able to recomment the better dissolution of the monopoly of lawyership. And to carry out their purposes, to submit an accompanying bill, and advise its passage as every way worthy of this transcendental state of legal perfection.

Instead of the complex and often ridiculous forms for breaches of prounies to marry, the committee would report the following, which may be found in their bill:

A. B. complains of C. D. for not marrying her according to his agreement; presents affidavit of hugging and kissing on sundry and divers occasions, and elabous dumages to the amount of \$600; offer to take judgment for \$200, nither than litigate.

This form may be easily varied to suit the case. If effectuational did also preferred, the story may be told in few words. Thus, in cases of assault and battery: E. F. complains of C. H. for kicking him, about a foot below the ornamental buttons on the back of his soul-to-rel his trowsers, and 25 cents for the plaster; rather than hitigate, will take 50 cents for the whole."

Now, that's what I call a popular report, and perfect the story the possible of the save the convention.

Now, that's what I call a popular report, and per-haps it is unnecessary for me to say, the committee recommended the passage of their bill. Michigan can't be beat for the progressive spirit of some of her citizens.

citizens.

The bill providing for the disposition of the Swamp Lands passed the House yesterday, and the same is now under discussion in the Senate to day, atthough not in the same shape, as they have a bill under consideration reported by their own Committee. The House Bill, which I think will finally become a law continues the come a law, continues the supervision of the Com-missioner over the lands; provides for their sale at auction at a price not less than one dollar and twen-ty-five cents per acre, and those remaining unsold ty-thre cents per acre, and those remaining unsoid are subject to private entry, at the same price, there-after. It also provides for the advertising of the lands by their local and quanta. The funds arising from such sales are to constitute a Swamp Land iands by their bent selvents. The funds arising from such miles are to constitute a Swamp Land Pund, which may hereafter be appropriated for the drainage and reclamation of the lands. The bill also grants the right in pre-amption to any person entitled to such right under the laws of the United States, "or any person over the age of Twenty one years who has not previously received the benefits of pre-emption on State Swamp lands," to the extent of 160 acres, at the price of one dollar Person regard as particularly valuable on account of their times or numerals. This is a very liberal and generous provision, and should be a means of inducing a large emigration to this State, as there are a vast number of farming and meadow lands, all throughout the State, contained in these lists. You will also notice the force of the language of the bill I have quoted. It is the design of the Bill I have quoted. It is the design of the Bill I have quoted. Administration—to this end may they succeed. The swamp lands in this and three adjoinging townships, amounting to about 7,000 acres, are withheld from sale for the use of the Arcivellural College.

7,000 scres, are withheld from sale for the use of the Agricultural College. Those are the main features of the bill. I imag-ine some of the capitalists and lumbermen of Chi-cago will find it a matter of deep interest to keep cago will find it a matter of deep interest to keep an eye to these sales, as there are many of them, scattered along the western slope of the Lower Peninsula, that are valuable for their fine timber.

The bill authorizing the re issue of our State bonds to the amount of \$216,000, and nuthorizing the loan of \$50,000 more, has passed both branches of the Legislature and become a law.

Joint Resolutions will be introduced into the Sensie to-day or to morrow, requesting our Senators to vote against the Lecompton swindle, or, in fact, any other sorm of admitting Kansas into the Union except an a Free State.

Yours, &c.

VENTAS.

John Johnston, a young man engaged in teaching school, near calcabury, Coles county, took his gun to shoot an owl, and while blowing into the barrel, to accretain if it was loaded, it exploded, killing him instantly.

Important from Kansas.

ESCAPE OF HENDERSON.

I wrote to you on Saturday last the news of Henderson's rescue from Lawrence by mean of a writ of habras corpus. As this event will b swindle be received by Congress, I will now marrate the particulars so far as I can learn last, the question of jurisdiction, in this case, occupied the attention of Judge Miller. On Friday night the Judge decided to proceed to trial in the morning. Gen. Lone, as counsel for the prosecution, urged that the prisoner be placed in close custody. It was urged by Henderson's course that there was no need of this action, as the prisoner was anxious to proceed tempt an escape, and us he had before refused to be released on a writ of Asbess corpus, it was considered safe to allow him to go about, as he had been doing, on a partial parole of honor. There was a ball that evening—Henderson atended, and soon after the dancing commenced, he was taken from the ball room by Deputy Marshal Ashland, of Leavenworth, who had just arrived in town with a writ of Aubeus corpus. Henderson left the room, and subsequently the town with him. It was all done in a few minutes, and but a few persons knew it, was evidently a pre-arranged affair, as Ashland left on the opposite side of opposite side of the Kansas River, a large body of U.S. Dra-goons, who has been detailed from the Feet as a posse. They broke up their encampment and returned to Leavenworth the same night. The

returned to Leavenworth the same night. The escape was not generally known till morning. A bench warrant was issued and put in the hands of the proper officers, for the arrest of Henderson and Calhoun for contempt of Court. The latter, however, we know to be in Weston, Mo., and in all probability the former is in as asfe a place, if not already on his way to visit his distinguished friend, the President, whoy the hospitalities of the White House, of which his indimedy with the present occupant, this estimable goutlemen, who breaks his parole, forges election returns, acts the Border Ruffan, and holds the position of a Federal official, boasted of so much.

bonsted of so much.

BORE DEVELOPMENTS.

When the official report was published by the presiding officers of the Legislative Assembly, the vote was in favor of the Free State men. For several days past it was currently reported in Weston and Westport that the Dulaware Crossing returns were counted by John Cas. Orossing returns were counted by John Calorosang returns were content by John Cah, houn, and that all of the Pro-Slavery ticket with the exception of Mathies and Carr was elected. This rumor is now authenticated, and the publication in the Leavenworth Herald of Calhoun's Proclamation, declaring the result, which gives about fifty majority on the State ticket, with those two exceptions. The Delaware Crosting returns heing about this result. ticket, with those two exceptions. The Bela-ware Crossing returns bring about this result, and Henderson's escape enables this to be done with impunity. In the Legislature it stands as follows, by this unexpected change of front, House—a tie between the two parties; Senate— a majority of one, Pro-Slavery; thus enab-ling the Feions to elect U. S. Senators, and ef-fectually preventing any legislation.

fectually preventing any legislation.

Going to UTAR.

It will be remembered that it was stated a short time since, that valiant Titus was raising a band of Border heroes, to proceed to Utas in the Spring. It appears that these attempts were not confined to Titus, but that nearly all of Baford's captains and other aiders of the Ruflans were engaged in the same efforts. At Doutphan 25 men are enrolled, at Iowa Point, Kickapoo and Atchison, companies are organized, as also in Missouri, in the border counties. So secretly had the work of organization progressed, that, until a few days since, it was not known at all to the Free State men. The ostensible object, however, leaked out, and with it a rumor of another scheme. It is said the plan of operation is for these companies to camp out in the Territory in early Spring, preparadory to finally taving, and when all is prepared, strike a simultaneous blow all along the border, assessmanting all the principal Free State men and then leaving for Fort Kearny, border, assassinating all the principal Prec State men and then leaving for Fort Kearny, there to enlist for service in Utah.

there to enlist for service in Utah.

THE INDIAN OR NACHA TERRITORY.

I learned from a gentleman who lately returned from a tour through this country, these large numbers of Misseurians and Arkansans, with their slaves, are, with the connivance of the Indian tribes, at these in that Territory. Among the Chockaw, a strong desire is expressed in favor of immediate admittance into the Union as a Slave State. The Cherokees are not manimous on this subject; but as both nations are large slaveholders, the propagandists have taken care to excite their passions, by playing on their cupidity.

on their cupidity.

A great deal of feeling is manifested with regard to the subject of Free or Slave State. Considerable prejudice exists against Kansamen. Slaves are numerous, most of the principal chiefs owning from fifty to one hundred. The Choctaws grow considerable quantities of cotton and tobacco. My informant states that it is no uncommon thing for the slaves to run away to Mexico in parties of twenty or thirty, and when pursued will fight desperately, rather than go back to bondage. A large number of slaves thus escape annually.

PROF. YOUMANS LECTURES. Chemistry of the Sunbeam.

The two lectures given before the Young Men's Association by Prof. Younges, were of such superior Those she were present will not soon forget the power and elequence of the speaker, and any one who failed to hear them, missed one of the finest treats of the season. We find that the Germans, as might have been expected, from their thorough cal ture and quick apprehension of all that is really ex

cellent in thought or expression, discovered the superiority of these lectures to the optimary class of such productions; and we are glad to transfer to our own columns the following notice, which appeared in the Zesburg, of this city;

Science never appears more attractive to us, than when she shares with the public the results of her great achievements; and with a few bold strekes of her broom, brushes away from before the cyes the cobwebs, which him its the horizon of most men to the measure of a few square feet.

The separate branches of the natural sciences have aiready reached a height where they touch and intertwine with each other. Chemistry, which busies itself with the analysis of bodies, achieved here itself with the analysis of bodies, achieved edges its dependence on Astronomy, with Physicology conciseses its dependence on both. Prof. You mans attempted, in his two lectures on Tuesday and Thursday evenings, to give us slock into this wonderful inter-dependency, and to show not only the direction of the shuttles glancing hither and thitter while wearing the divine fabric; but also to prove the end and purpose of all this cartily and heavenly mechanismho be the spiritual life of man.

It is not without its value, to vindicate in a new sense the wisdom of the ancients, which ascribed to the stars a strange infloence over human conduct. Every Science goes through this stage of instructive divination, usually termed Saperstition; and we tife method, much which, carried the season of the Stars was Astrology; atterwards it became Astronomy; and now, finally, we behold the sole connection of the stars was Astrology; atterwards it became Astronomy; and now, finally, we behold the sole connection of the stars with the development and destiny of humanity, again demonstrated.

In the next place the Lecturer passed in a carsory manner over the earth and the various materials on which the influence of the divines failed, the waited in a carried from it the nourishment of ranimal life, and thus fail in continued

pleted without the co-working of light, of the Sunbam, not alone of our, but of all the innumerable planetary systems.

The operation of the Sunbeam, as the leading life giving and controlling element, is three-fold. First, it is illuminating power. The world of colors is the creation of the Sunbeam. Newton first separated with the prism the ray into the three ground colors—blue pullow and red. The some quences of this illuminating quality have direct and most important relations to spiritual life. If we building again the light of the Sunbeam gone, a gray, blank world cases us into unendurable dumbness and despair.

The second effect of the sun beam is bead. This single quality constitutes the sun the fastitioner of the globe of the outh. As heat expands and entire to the globe of the outh. As heat expands and entire to the globe of the outh. As heat expands and entire to the globe of the outh. As heat expands and entire to the globe of the outh. As heat expands and entire to the globe of the outh. As heat expands and entire to the globe of the outh. As heat expands and entire to the globe of the outh. As heat expands and entire to the globe of the outh. As heat expands and entire to the globe of the outh. As heat expands and entire to the globe of the outh. As heat expands and entire to the globe of the outh. As heat expands and entire to the globe of the outh. The first seem of river, and determining the character of the soil. The Mississippi nor the earth corresponds with a Mississippi in the size of the soil along with them the first and the first and the first and the outh growth and form points and the soil along with them and form points, the first and the soil along with them and form position to the corresponds to the soil along with them and form position of the soil along with them and form position to the corresponds to the correspond of the soil along with them and form position to the corresponds to the soil along with them and form position to the correspond to the correspond to the soil along w

products of their destruction oxygen ever seiz gas—up to the air; and oxygen ever seiz brings forth from the graves his favorite cast ocean of air. In a sense the most real, we are the preducts of the stems of the dead and perialned, that through the means of plants have built up and formed our bodies.

How great the effect of this heaf is, we can judge when told that the San would melt in one year a crust of ice around the earth ten miles thick. So much heat is imported to our earth by the San. The stars, those millions of greater sans than ours. The

much heat is imparted to our earth by the sun-stars, those millions of greater suns than ours; ate a force of heat that would melt in one yea crust of fee around our earth eighty-six miles in Their influence is always the same, and they se to form a certain basis of temperature, upon wit the extra best of the Sun works out through changing somes and seasons its great results. And here we come upon a phenomenon t shows in most striking light the dependence of man development on the onality of light. If we north latitude. Not only the character of the table and animal world is determined by the powhich their localities held towards the sun, the same is true of the human trind. For this son we find the best specimens of architecture twen the same passileds of latitude, ranging, the Pyramids of Egypt to St. Paul's Cachedra London. In the regions above or below these allels, civilization may be imitated or imported never has been originated in this we behold supreme dominion of the stars, for through the flusiness alone can this phenomenon be explaine.

never has been criginated in this we behold it supreme dominion of the stars, for through their if fluince alone can this phenomenon be explained. We find the soffer the earth the same in all lat todes, that the magician who thus calis forth from the temple in the soften in all lat todes, that the magician who thus calis forth from the temples to the poles, is the Shi beam.

Finally. The third effect of this heavenly, swift winged messenger, is the chemical. This quality is of late discovery and not yet fully understood, consists of a power to take to pieces and put toget or again in new ferins, certain fine materials, examples of which are found in the picture made by thight in the Camera obscura of the dageserrootyp and also in the return of the eye. This kind of effect is the most wonderful of all. Our off it grows the finest relation of the stars to our spiritual life. The Sanbeam comes down millions of miles to praint images upon the retime of the eye, these the option nerves carry to the brain, and thus produce the world of images which becomes the material for on combination and thought.

By a st were, a key shot down from an unmeasured distance in search of its lock, which is the eye of producing these grands spiritual phenomens. In this yiew man appears in a few crander sense, the his yiew man appears in a few crander sense, the

2 SHILLING BEOGADE STARS,
Por Six Shillings. ARVESS AND EMIDLE LEITER THIRTY-FIVE DOLLAR RICH SILES, For Twenty Dollars. Great Reduction of Pri against their crimes and depressations. A few days since, a slore was broken open and the barglar got into the hands of the Committee, who, by threats, aqueezed out of him so much information as they wanted, to make a pounce upon some of the others of the gang.

On receiving such information, a part of the company proceeded to the head quarters of the villains, at which they succeeded in arresting eight of the gang, with all the implements necessary to the manufacture of counterfeit coin. They were well supplied with weapons of dence, such as guns, bowie knives, pistels, &c. They placed the scoundrels under a guard of fifty men tot the night. The next day the excitement spread. One of them was hanged, and they were proceeding to execute the balance, when by a vote, decided by only six, in the large crowd present, they decided to hand them over to the officers of the law. The Committee compose the bone and sinew of the basiness men of the county. A place known as the "Tamarae," a large swamp in Ladiana, south of Bronson's Prairie, in this State, is a noted hiding place for them. By this resolute movement, it is ammored that expressed it is read-CARPETINGS TEN SHILLING PRENCH MERINORS, 'And if you'd give me, brother John, The sympath, I crave, And stretch your warm, fraternal hand Across the Atlantic wave, COMMISSION MERCHANTS. CARNES A WILSON,
Billake street, Chicago. STEWART & DURKEE We quote the following from Parrox's Life of Burn:
There was one remarkable occasion in which he spoke of the duel seriously and eloquently. It was when, for the only time in his life, he revisited the ground where it was fought. Ho went there, to oblige a young friend who wished to see a spot so famous. Leaving their boat at the heights of Weelsawken, just where Burr had left his boat on that Intal morning, a quarter of a century before, they climbed over the same rocks, and soon reached the ground. Except that the rocks were covered with names, and that the ground was more overgrown with trees, the place had not changed in all those years, nor has it yet. It has changed owners, however, and belonged to a son of Rufus King, Burr's colleague in the Scenate, and Hamilton's friend in the lobby. In the boat Burr had been somewhat thoughtful and silent, but seemed, to enjoy the bright day and pleasant shores, as he always enjoyed bright and pleasant things. On reaching the scene, he placed his companion on the spot where he stood himself, and proceeded to mercate the incidents of the occasion. We quote the following from Parron's Life DRY GOODS. Magazines for 1858, Commission Marthaul, No. 1 Stone si., New York City 19757-19 A TCARNES & WILSON'S, NO. 134 LAKE "Our Anglo Sixton name and fame, Our Anglo-Sixton spaced Received their misson straight from Hoaver So here's my hand, I nevetch it forth ! RMERS' TAON INSURANCE CO its drives and thoroughres, as washington. Two servants (white men generally) are monuted on the carriages of our patricians, and solemn-visaged funiterys, in a costume adopted from the age of Lonis Quatorze, preside at the portals and penetralia of their abodes. One attendant, at least, with a pair of well-shaped calves sheathed in silk, and a flowing neck-cloth of unsported missin, is deemed an indispensable appendage to the retinue of the lady of tashion. It is true, the buttons on his cost, or the pannels on the lady's carriage are not adorned with the family coat of arms, and this is the only peculiarity which distinguishes the native equipage from Madame Sartige's of Lady Napier's.

The herald's college is not yet an institution, and the tracing of pedigree by the awkward inquiries addressed to the memory of old people, frequently discovers unsatisfactory results.

A set of new emblems must be devised to sapaste the standard of the standard of the inertial procession of the procession of th OF PENNSYLVANIA A. L.
